8 - NOV 194

REVENUE DEPARTMENT

Subject

-RURAL WATER SUPPLY-Comprehensive Scheme--(South Kanara)--Puthur Panchayat--Provision of drinking water--Proposals--Remarks--Submitted.

L.Dis.No.V.8350/48,

Station:-Madras. Dated 4th November 1948.

From

C.A.Ramakrishnan Esq., I.C.S.,
Joint Secretary, Board of Revenue.

V.N.Kudva Esq., C.I.E., I.C.S.,
Commissioner of Land Revenue, Excise and Prohibition.

P.G. Confe -

Read the following:-

I.From Government, Education and Public Health Memo No.95326/47-2. F2.P.H., dated 19/12/47.

II.From the Collector of South Kanara, D.Dis.2115/48 dated 20/7/48.

Ref:-From the Board of Revenue, L.Dis.V.No.383/48-1, dated 16/1/1948.

The request of the Puttur Panchayat Board members to have the provision of protected drinking water supply by tapping the waters of the Kumardhari river by means of a canal as far as Puttur appears to me to be impracticable and too ambitious for a Panchayat Board like Puttur with a limited annual income in the neighbourhood of Rs. 27,000/-. The distance is 8 miles and the area in between is interspaced with hills and valleys. The cost will be enormous. Besides, the scheme will have to be investigated by the Superintending Engineer, Public Health.

A/P14

C/675-6f

(A)

C/675-6f

2. The Panchayat Board has put forward an alternative proposal as an interim measure, for the provision of a well, fitted with a pump in S.No.130/1A1 of Puttur where all the Public offices of Puttur are situated. This well is reported to be useful not only for the public offices, but also for about 25 houses around it. According to G.O.No.2310, P.H., dated 24/6/38 as modified in G.O.No.1989, P.H., dated 30/7/45 no Panchayat with a population of over 10,000 can be included in the Rural Water Supply Scheme. The population of Puttur Panchayat was a little less than 10,000 in 1941. It would exceed 10,000 now. In the original G.O.No.2310, P.H., dated 24/6/38 Panchayats with an income of above Rs.3,000/- were excluded from the scope of the scheme. In the subsequent G.O.No.1989, P.H., dated 30/7/45, which modified the earlier G.O. of 1938 though the population limit was increased from 5000 to 10,000, there is no reference to the income limit. At any rate, considering the fact that the Panchayat has an annual income of Rs.27,000/-. I do not think that it can be brought within the scope of the scheme though the population may be just in the neighbourhood of 10,000.

D/11f

3. In G.O.No.1925 P.H., dated 26/5/39, the Government said that they would consider the question of giving half grants, to those Panchayats which have small income but are outside the scope of the Rural Water Supply Schemes, for the provision of protected wells just as they give half grants to major Panchayats and Municipalities for pucca water supply schemes, and that such schemes must be treated as Part II Schemes and applications made by the prescribed date. It is open to the Panchayat to avail itself of this provision. I am informing the Panchayat Board accordingly.

Copy to the President, Panchayat Board, Puttur.

III.From the Sanitary Engineer, No.11433-1/48-WS/13.R.W.S.b.dated 15/10/48.

Ref:-Your No.Ref.V.8350/48-1, dated 5/8/1948.

The proposal of the Panchayat Board, Puthur to take up the protection of the existing well in S.No.130/1A1, as drinking water source, with improvements to the required extent, may be approved. But detailed plans and estimates for the proposed improvements, showing the full particulars of the existing well and the repairs or additional items of work required to bring it up as far as practicable to the standards of the type design for open wells issued with P.W.H.B. T.D.No.2 of 1942, should be got prepared and duly sanctioned before execution.

2. In view of this proposal being beneficial only to a small percentage of the entire population of about 10,000 the Panchayat Board may also be instructed to formulate suitable proposals for the other parts of the town and provide similar facilities so as to benefit the entire population in due course.

3. The local Health Department officers should also certify to the potability of water drawn from these sources and the suitability of the localities chosen for the purpose.

—

L.DIS.

Submitted to the Government with reference to their memorandum read above.

2. The Board recommends that as the alternative proposal suggested by Puthur Panchayat Board will be beneficial only to a small percentage of the population, the Panchayat Board may be asked to draw up a long range plan for providing protected water to the entire population in the Panchayat area and apply for half grant if necessary. | 13

Sub:- W.S. Puthur Panchayat - South Kanara Dt.

Ref.C.E's Endt.No. 4397 PWW-49-1 d/24-6-49 on Govt. E&P.H. Memo No.82608 H1/48-2 d/14-6-49 on the subject under reference.-

A copy of this office letter No.11433-1-8 WS/d15-10-48 to the Board of Revenue is herewith furnished as called for, with copies of the Board's Communications to this Dept. Ref.V 8350-48-1 d/5-8-48 pertaining to it. The question of a comprehensive scheme of W.S. for the whole Panchayat area and any investigation thereof has not as yet been considered to be included in the Provincial Compendium with a place of priority in it.

Perhaps the Govt's intention is to give relief to this Panchayat coming outside the scope of the R.W.S.scheme, by way of a half grant for the provision of a number of protected wells in suitable localities in the Panchayat area as envisaged in G.O.No.1925 PH d/25-5-39 referred to in the District Collector South Kanara letter to the Board D.Dis.2125/48 d/20-7-48 para 3 (vide please enclosure to Board's communication d/5-8-48 to this office copies furnished). If so the Govt., May please be requested to make the scope of the compendium under contemplation comprehensive enough to include also such small scale water supply (non-municipal urban) schemes as these, in addition to the pucca scheme provided for major panchayats and Municipalities, eligible for half grants.

PUBLIC WORKS DEPARTMENT

From Sri A.R.Venkatachari,B.E., M.I.E.(Ind.)M.Am.Soc.C.E.,I.S.L., Chief Engineer,P.W.D.(General) Chepauk, Madras.

To The Secretary to Govt., Education and Public Health Department, Fort St.George, MADRAS.

Letter No.4397-PWW/49-2 dated 21st November '49

Sir,

Sub: Water Supply - Puthur Panchyat-South Kanara District.

Ref: Education and Public Health Memo No.82608-H1/48-2.PH.dated 14-6-49 and Sanitary Engineer's letter No.18012-Wks/49-1-WS/13-RWS.d/5/9-11-49.

ASSISTANT SECRETARY TO GOVERNMENT EDUCATION AND PUBLIC HEALTH DEPARTMENT 22 NOV 1949

From the Sanitary Engineer's letter No.9772-1/49-WS/13/RWS.dated 14-9-49 - copy stated to have been sent to Government - it is observed that he has not consulted the Director of Public Health as directed in the above Government Memo, presumably on the assumption that such consultation was not necessary in this case because the scope of the Compendium itself required to be widened in the first place, before including such small schemes for protected wells. A copy of his above letter is enclosed for ready reference.

2.As Panchayats with a population of 10000 and above have been included in the Compendium approved in G.O.No.55-PH. dated 7-1-46 for purposes of protected Water Supply Schemes and as the Collector of South Kanara reported in his letter dated 20-7-48 to the Board that the population of the Puthur Panchayat in question 'would exceed 10000 now' it is presumably the intention of Government to include this Panchayat also in the compendium for the purpose of investigating either a Comprehensive protected water supply Scheme with Kumardhari river as source (as suggested by the Panchayat Board and referred to in the Collector's letter) or any other alternative source or at least a limited water Supply Scheme for the entire Panchayat by the investigation and provision of a number of protected wells in suitable localities as suggested by the Sanitary Engineer in his letter dated 15-10-48 to the Board of Revenue. If the intention of Government is only to give half grant to the Panchayat Board for provision of some protected wells without investigating and preparing a regular scheme either limited or comprehensive the scheme can be treated as a Rural Water Supply Scheme and dealt with according to G.O.No.1925-PH.dated 26-5-39 as suggested by the Collector without including it in the compendium at all.

In these circumstances I am asking the Sanitary Engineer to suggest in consultation with the Director of Public Health a suitable place of priority in the Compendium assuming that the present population of the Panchayat is over 10000 and with reference to its importance from the standpoint of public health so that the feasibility and necessity for a Comprehensive Water Supply Scheme or a limited scheme as the case may be could be investigated by the Sanitary Engineer in due course according to the priority to be assigned to this Panchayat. On receipt of the above particulars from the Sanitary Engineer, a final report will be submitted to Government.

Sir,

Sub: WATER SUPPLY - Puthur Panchayat - South Kanara Dist. - priority to be assigned in the Provincial Compendium.

--:0:--

147

At present there is no protected water supply scheme for the Puthur Panchayat Board in South Kanara District. Its present population is reported to be over 10,000- The District Collector and the Revenue Board desire that in the interests of public health this panchayat area should be provided early with a suitable scheme of protected water supply, including it in the provincial compendium approved in G.O. No.55 P.H., dated 7-1-46, for panchayat water supply schemes, with a suitable place of priority as may be recommended by the Health Department. I forward herewith for reference copies of G.O.No.(L & P...) 82608-H1-48-2 P.H. dated 14-9-49 and the correspondence thereon between this office and the Chief Engineer, P.W.D, and Government (this office No.18017-uhs/49-1/US-13 Pws dated 5-11-49 to the C.E. P.W.D., in continuation of No.0773-1/49 US/13 Pws/14-9-49 and C.E. P.W.D.'s No.4397-pww/49-2 dated 21-11-49 to the Government E. & P. and request that a suitable rank may be assigned in the Provincial compendium to enable further action being taken by this department in regard to the investigation and drawing up of plans and estimates for a suitable scheme in due course.

Sub: Water supply - Puthur Panchayat (South Kanara Dt.) Inclusion in the compendium - Orders passed.

ORDER Ms. 1454 Health, dated 25.4.50

Puthur Panchayat in South Kanara District is not included in the compendium of water supply requirements of the province approved in G.O.No.55,P.H. dated 7-1-46 as its population as per 1941 census was less than 10,000. The population of the Panchayat has since exceeded the population limits fixed for the schemes to be included in the rural Water Supply scheme. The Government, therefore, direct that the Puthur Panchayat in South Kanara Dt. be included in the compendium of Provincial requirements of Water Supply approved in G.O.No.55,P.H. dated 7-1-46 and be assigned a rank after Jammalamadagu as item 198.

2. The E.O. of the Panchayat Bd. Puthur is informed that the water supply scheme of the Panchayat will be taken up only in its turn in the compendium and that if the Panchayat Bd. is anxious to take up the scheme now it should bear the entire cost of the scheme from its funds without expecting any grant from Govt.

From the Board of Revenue, L.Dis.No.V.8350/48(d)4-11-48.

Sub:- Water supply scheme - Puthur Panchayat (South Kanara Dt.)

The case deals with the question of provision of water supply facilities to Puthur Panchayat in the South Kanara Dt. The P.Bd. Puthur requested the Govt. to provide protected drinking water supply to the Panchayat by tapping the waters of the Kumaradhary river by means of a canal as far as Puttur. This suggestion was remitted to the Board of Revenue for consideration. The Collector of South Kanara who was consulted by the Board has suggested that the suggestion of the Panchayat will be impracticable and too ambitious for a P.Bd. with a limited income in the neighbourhood of Rs.27,000. He has referred to the alternative proposal of the Panchayat for the provision of a well, fitted with a pump. The Sanitary Engineer has approved the proposal to take up the protection of the well in question and has suggested that detailed plans and estimates for the proposed improvements should be got prepared and duly sanctioned before execution. ~~The recommendation of the S.E. may be accepted.~~

The S.E. also states that as the scheme, referred to above, is only beneficial to a small percentage of the Pancht. the P.Bd. may also be instructed to formulate suitable proposals for other parts of the town. The Board of Revenue agrees with the S.E.

(B) The water supply scheme of the Pancht. does not find a place in the compendium of provincial requirements as its population was a little less than 10,000/- according to the census of 1941. As it is deriving an exp income of more than Rs.3,000/- it has also been excluded from the Rural Water Supply Scheme. A scheme has not therefor been considered for this Panchayat either under the Rural water supply scheme or urban water supply scheme.

(F) It has been decided that in the case of non-munici (pal

(F)

municipal urban W.S. & D. schemes the priority fixed in the compendium should be followed subject to the condition that schemes on which investigation has been completed or schemes for which the entire cost is met by the local body concerned, may be upgraded irrespective of their position in the compendium.

(B)

A place of priority has first to be fixed for the Panchayat in the compendium for water supply schemes. The S.E. may be asked to suggest a place of priority for the Panchayat in the compendium, in consultation with the D.P.H.

A draft memo. is subtd. for approval.

Issued as Memo 82608/48 H1-2 P.H. dated 14-6-49 to the Sanitary Engineer.
D.No.7566/50 From the C-E. P.W.D. E.No.4397 -PWW/49 dated 29-3-49.

p7g
p27g

Please see the notes from p1 ante and the letters from the Sanitary Engineer, D.P.H. and the Chief Engineer at pp.25-27c.f. As regards the place of priority for the water supply scheme of Puthur Panchayat in South Kanara Dt, the D.P.H suggests that the Panchayat may be assigned the 198th rank in the compendium. The S.E. and C.E. agree with the recommendation of the D.P.H. Their recommendations may be accepted. The C.E. further suggests that as the rank suggested to the Panchayat is low, the scheme is not likely to come up for execution in the near future. If however, the Board is keen on having a protected wqter supply scheme, it should be prepared to finance the scheme entirely from its own funds. The E.O. of the Panchayat may be informed of the
